# THE CHERRY HILL NURSERIES

are located in the fertile valley of the Merrimac River and our land, a light loam underlaid with clay, produces a great many fibrous roots, so that evergreens, etc., may be lifted with a ball of earth adherent, thus insuring the roots from exposure.

**SPECIALTIES.**—We have made specialties of Evergreens and have a great many large specimens. Among others we have fine stocks of Concolor Fir, Fraser Fir, Siberian Arborvitæ, Douglas Spruce, Colorado Blue Spruce, Hemlocks, Kalmia (Mt. Laurel), Andromeda floribunda. Also Sugar and Norway Maples, native Azaleas, etc.

**PEONIES.**—We have our Peonies, Iris and Phlox listed in a separate catalogue which we will be glad to send to any one desiring it.

**WARRANTY.**—In growing and furnishing nursery stock we exercise the greatest care to have it true to name and will replace any that may prove untrue. However, we give no warranty, expressed or implied and in case of error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original purchase price. We do not warrant trees to live, as we have no control over the weather or the circumstances attending planting; but we have abundant proof that our trees, when planted carefully at the proper time, have given excellent satisfaction. We dig and pack very carefully with as little exposure as possible to the sun and wind.

We can deliver with horse teams, within twenty-five or thirty miles, any heavy or valuable stock much cheaper than it can be sent by rail, charging only for time of men and horses on the road. Large buyers or dealers can buy stock by the row or block at less than these prices, while trees *personally selected* in the nursery will be charged for according to size and beauty, and not at wholesale rates.

**PACKING.**—The prices annexed do not include boxes or bales and these will be charged for extra, but only enough to cover cost of time and material. We make no charge for delivery to the express or railroad station.

**TERMS.—These prices are for net cash unless by special agreement.**
